Case 1: ExploreMore – Travel Agency Website 🌍

The ExploreMore Travel Agency website is designed to help users explore holiday destinations and travel packages. It displays popular destinations such as Manali, Goa, Jaipur, Kerala, Agra, and Ooty, along with package details, durations, and sample prices. The website includes navigation links, an enquiry form, and buttons that allow users to select a travel package. HTML is used to structure the webpage, CSS is used to improve its appearance, and JavaScript is used to provide interactive features.
